Science V. Story Emma Frances Bloomfield, 2024-02-27 Uncovering common threads across types of science skepticism to show why these controversial narratives stick and how we can more effectively counter them through storytelling Science v Story analyzes four scientific controversies climate change evolution vaccination and COVID 19 through the lens of storytelling Instead of viewing stories as adversaries to scientific practices Emma Frances Bloomfield demonstrates how storytelling is integral to science communication Drawing from narrative theory and rhetorical studies Science v Story

examines scientific stories and rival stories including disingenuous rival stories that undermine scientific conclusions and productive rival stories that work to make science more inclusive Science v Story offers two tools to evaluate and build stories narrative webs and narrative constellations These visual mapping tools chart the features of a story i e characters action sequence scope storyteller and content to locate opportunities for audience engagement Bloomfield ultimately argues that we can strengthen science communication by incorporating storytelling in critical ways that are attentive to audience and context

The Decapitated Chicken and Other Stories

Horacio Quiroga, 2013-05-15 Tales of horror madness and death tales of fantasy and morality these are the works of South American master storyteller Horacio Quiroga Author of some 200 pieces of fiction that have been compared to the works of Poe Kipling and Jack London Quiroga experienced a life that surpassed in morbidity and horror many of the inventions of his fevered mind As a young man he suffered his father's accidental death and the suicide of his beloved stepfather As a teenager he shot and accidentally killed one of his closest friends Seemingly cursed in love he lost his first wife to suicide by poison In the end Quiroga himself downed cyanide to end his own life when he learned he was suffering from an incurable cancer In life Quiroga was obsessed with death a legacy of the violence he had experienced His stories are infused with death too but they span a wide range of short fiction genres jungle tale Gothic horror story morality tale psychological study Many of his stories are set in the steaming jungle of the Misiones district of northern Argentina where he spent much of his life but his tales possess a universality that elevates them far above the work of a regional writer The first representative collection of his work in English The Decapitated Chicken and Other Stories provides a valuable overview of the scope of Quiroga's fiction and the versatility and skill that have made him a classic Latin American writer
